## AQUABRASS

**Welcome to Aquabass (AB), an innovator in the bath and kitchen industry for 30 years.**

You will find us at our offices in Toronto, Vancouver and Phoenix, and at our specifications office in the heart of Soho in New York. But you may find us most at home at our headquarters in Montreal. A city where European savoir-faire meets North American practicality, Montreal is unconventional, audacious, exhilarating. And our natural habitat.

You will also find **AB** in homes across North America and throughout the world. Our bathroom and kitchen solutions offer discerning buyers exceptional quality, of course; our expertise and craftsmanship are second to none. But the flair we add to functionality is what truly sets us apart.

Bathroom and kitchen faucet collections, full body shower systems with steam, chromatherapy and aromatherapy, free-standing bathtubs, vanities, washbasins and accessories... all of the products we manufacture feature high-performance materials and superb functionality. Most are designed for quick and easy installation in new or existing bathrooms of virtually any size or style. That's our North American know-how at work.

But **AB** customers also experience our passion for design through our exclusive creations, many of them made to measure. We do our own plating. We commission artists. We stop at nothing to ensure that every product we manufacture thoroughly delights the customer and authentically represents **AB**.

Unconventional, audacious, exhilarating.

RELIABLE.  
PRECISE.  
SILENT.

Each and every Aquabrace thermostatic shower valve is a judicious composition of the best-performing components available on the market and in-house expertise.

For a flawless temperature control, we select French label Vernet, the gold standard in thermostatic cartridges. The ceramic elements for our diverters and water outlets are German, the foundry Italian, the engineering Euro-Canadian. Optimized for North American construction techniques, our valves are essential to the ultimate shower experience.

Fed from beneath, these valves can fit into amazingly cramped spaces. An ingenious hot and cold water supply reversal system makes it easy to mount them back-to-back. With their oversized water inlets and high-performance thermostatic cartridges, they can manage up to four water circuits at the same time without losing their perfect precision. They can also accommodate harder water, thanks to the materials used.

Sleek, contemporary trim sets with a choice of handles complete the european design touch.

# SHOWER

Infuse your daily shower with beauty and functionality. From the European design of an exposed shower column, a myriad of recessed, exposed or wallmounted multi-function rainheads, to cascading body chutes, Aquabrace's broad shower fixtures selection offers high performance and sleek esthetics to let you compose your own personal oasis.

## HOME SPA

Imagine stepping into your shower and enjoying an authentic spa experience, where you can uplift, unwind or simply get away.

When relaxation and well-being are the ultimate quest in a bathroom escape, the Cura Aquademy and Cura rainheads series are an ideal destination for a mental and physical boost.

### CHROMATHERAPY

Chromatherapy is an age-old form of healing that mixes color and light, recognized for its ability to improve one's mood and overall health.

Both Cura Aquademy and Cura rainheads offer healing shades of green, red and blue—each one with its own therapeutic properties and intensity.

**GREENS**  
Harmonize and balance

**REDS**

APEX COLLECTION

## BATHROOM FAUCETS

Both extensive and exquisite, Aquabrax bathroom faucet collections are a true reflection of the brand's craftsmanship, expertise and personality.

Created by some of the world's most forward-thinking designers, each line is carefully crafted using only high-quality materials. Not only beautifully designed, these collections are complete, each offering solutions for diverse types of faucet applications, from lavatories to tub fillers to bidets. And as details make the design, the choice of faucets can also be made by type of water flow: aerated, cascading and crystal clear.

GEO TUB FILLER / TURKS BATHTUB #B0016

## AQUABAGNO COLLECTION

The Aquabagno collection comprises eight high style, contemporary free-standing bathtubs. Manufactured of white stone resin, each design speaks of refined quality and gleams with a durable glossy finish requiring minimum maintenance. What's more, a wide selection of Aquabross tub fillers complement the bathtub of your choice for deckmount, wallmount or floormount applications.

## KANVAS™ COLLECTION

Art enters the bathroom with Kanvas™, an exclusive collection of hand-painted free-standing bathtubs offering three unique paintings signed by the artist: bright and bold **Graffiti**, nature-inspired **Pax** and architectural **Mosaik**. Artful, playful and beautiful, Kanvas™ is an esthetic way to add a distinctive touch to any bathroom.

GRAFFITI BATHTUB (#B0080)

## BASINS

Choosing the right basin is an important task as it sets the tone to the overall style and usage of a bathroom. It also determines the choice of faucet best suitable for the space.

With its clean and modern lines, the Lugano countertop basin is a perfect option to dress vanities in today's master bathrooms and ensuites. The collection, made from stone resin with a resistant glossy finish, comes in four different widths: from 19" to 39".

To complement smaller areas such as powder rooms, free-standing basins are the ideal solution. They also make a design statement. Aquabrace offers three styles made in a glossy stone resin - round, square and rectangular - each with the option of a platform to install a single-hole faucet.

## VANITIES

Powder room or master ensuite, a vanity is the most functional piece of furniture in the bathroom, keeping a variety of personal effects both organized and close at hand.

Aquabrax carries a range of five complete vanity collections - Bosko, Kolori, Box Uno, Alto and Metriko - each offering premium quality and a wide range of sizes, finishes and colors along with matching units such as mirror cabinets, linen cabinets, and decorative mirrors.

## KITCHEN FAUCETS

Whether it's the home chef's culinary workshop or the family's daily 'living room', a well designed kitchen is as practical as it is convivial.

Aquabrax kitchen faucets do more than make an architectural design statement. They do serious kitchen duty. Pull-down or pull-out, these super-functional features make any cleaning convenient. The spray stream mode offers soft water pressure to safely rinse fruits and vegetables. A faucet with a side joystick lets you place the handle anywhere around the sink for better reach.

A stainless steel sink is another great way to enhance any kitchen's functionality, durability and style. Handcrafted in Canada, our Atelier sinks offer a great variety of sizes, featuring three installation methods: flushmount, undermount and topmount.

PLATING FACILITY - AB MONTREAL

### CUSTOM FINISHES AND ENGRAVING

A state-of-the-art plating and engraving facility located in our Montreal corporate office offers a choice of 15 additional finishes to create the perfect harmony between your **AB** products and your decor. The engraving option allows you to further personalize your space.

### LIFETIME WARRANTY

**AB** faucets and shower fixtures carry a full warranty against defects in material, mechanical working parts and standard finishes, limited to the original consumer purchaser. Custom finishes are warranted for five years. Details of the warranty for all other **AB** products are available at [aquabrass.com](http://aquabrass.com). The limited warranty is not transferable and is limited to products sold and installed in Canada and the United States.
